

K-Love radio station serves my family by providing safe, family-friendly songs and messages. It provides me with daily inspiration on my way to work to help me more fully serve the people in my community as a Teambuilding facilitator. K-Love also provides my community with pastoral services which are so important in today's world that is plagued with stress, anxiety, and depression. Depression affects over 20% of people in America. Without K-Love's supportive radio network in the Chicagoland area, I fear there will be people without anyone else to turn to. Please preserve the FM translator service and the wonderful ministry of K-Love radio.
